

Pedagogical Framework

The Mudgeeraba Creek Curriculum Framework is based on “**The Art & Science of Teaching—A Comprehensive Framework for Effective Instruction**” by Dr Robert Marzano.

The school began professional development in the Art and Science of Teaching in 2013, all staff use the framework in their classrooms.

The School is now working to develop **The Marzano High Reliability Schools™ Framework** by Robert Marzano. The HRS framework does not replace professional learning communities, the Art and Science of Teaching framework, teacher evaluation and development, sound curriculum, vocabulary instruction, instruction in critical thinking and reasoning skills, formative assessment, standards-based grading and reporting systems, or student mastery systems. Instead, this framework shows how best practices work together and provides indicators to empower districts and schools to measure their progress on attaining five increasing levels of reliability:

1. Safe and Collaborative Culture
2. Effective Teaching in Every Classroom
3. Guaranteed and Viable Curriculum
4. Standards-Referenced Reporting
5. Competency-Based Education
