

Year One at Mudgeeraba Creek State School is a time for learning, developing, exploring and most of all FUN!

In Term One English the students are learning the Daily 5 literacy routine.

Daily five consists of:

1. Reading to self
2. Reading to others
3. Work on words
4. Work on writing
5. Work on computers

Here are students in 1TF reading to self and others.

Here are students in 1ML working on words, writing and computers as part of their Daily 5 literacy program.

Maths is also exciting in Year One as the students explore patterns and numbers with lots of hands on learning. Here are students from 1L learning to count to 100.

Year One students are independent and motivated learners. Each student has their own goal and strategy for reading and mathematics. Here are students in 1GL filling in their Behaviour and Learning Goals folder, acknowledging that they have worked towards their goals today.
